

Designer with 8+ years shipping mobile F2P games with direct experience taking games through open soft launch, global launch and live operations. Background bridges design and code, Currently building UX workflows that integrate AI tooling into how the team validates design hypotheses.

EXPERIENCE

NORDEUS, SENIOR EXPERIENCE DESIGNER

Oct 2024- Present

Product: TopGoal

- Shipped UX through technical soft launch and open soft launch phases on TopGoal, partnering with research, product, and engineering to build and tune systems based on live player telemetry.
- Owned progressive teaching systems for game mechanics that reduce cognitive load and support new-user retention.
- Building new UX workflows for team that utilises AI tooling for buildable prototypes to test design hypotheses earlier, reduce ambiguity in feature investigation, and shorten the loop between idea and validated direction.
- Leading UX team and mentoring designers on craft, decision clarity, and how to frame ambiguous problems.

ZYNGA, SENIOR EXPERIENCE DESIGNER

July 2023- Jan 2024

Product: Farmville 3

- Shipped UX across FarmVille 3 features from soft launch through global launch and live operations, owning feature design, A/B test validation, and KPI measurement linking design decisions to player behavior shifts.
- Defined player-centric design principles for retention features, partnering with research and product to validate hypotheses against live telemetry.
- Mentored designers and interns, raising both craft quality and decision clarity across the team.

ZYNGA, EXPERIENCE DESIGNER

July 2021- July 2023

Product: Farmville 3, Empires and Allies

- Redesigned onboarding and navigation systems to reduce early churn and improve new-user retention and long-term engagement.
- Revamped reward and ad-watching experiences to balance player motivation with business outcomes.
- Presented UX strategy and rationale to stakeholders across disciplines, influencing product direction.

ZYNGA, ASSOCIATE EXPERIENCE DESIGNER

July 2019- July 2021

Product: Farmville 2, Empires and Allies

- Owned the end-to-end UX direction of the product as sole designer, collaborating with PMs and Game Designers to synchronize features with business needs, market feedback, and user testing.
- Directed Revenue KPIs and feature roadmaps as acting APM in Q1 2021.
- Wrote SQL to track feature completion rates and diagnose drop-off points, converting findings into design changes that improved engagement

GLU MOBILE, ASSOCIATE EXPERIENCE DESIGNER

March 2018- July 2019

Product: Deer Hunter 2018, Quiz up

- Conducted funnel analysis on user onboarding reducing churn and improving retention.
- Facilitated playtests using Playtest Cloud to analyze user inputs and produce actionable research reports.
- Designed and iterated on mobile product features informed by ongoing user research and usability testing.

EDUCATION

Bachelor of Engineering in Computer Science

June 2012-2016

Vishwesharaya technical university

SKILLS

- **Core Skills:** Behavioral UX · Longitudinal Experience Design · Systems & Interaction Prototyping · Data-Informed Design · Experimentation & A/B Testing · UX Strategy · Cross-Functional Collaboration · Design Systems
- **Tools:** Figma, Unity, Miro , Sketch, R, Python, HTML, CSS, JavaScript, React, Astro, Swift UI
